

RICARDO ALFREDO CALVO PEREZ

Software Engineering Student

r.calvoperez@outlook.com | +52 5586786855 | LinkedIn: [Ricardo Calvo](#) | Github: [RicardoCalvoP](#)

ABOUT ME

Software Engineering student at Tecnológico de Monterrey with professional experience in full-stack development and enterprise systems. Skilled in React, JavaScript, Python, and automation-focused solutions. Interested in web application development, AI-driven applications, and scalable software systems.

PROFESSIONAL EXPERIENCE

Zurich Capability Center

Mexico City, Mexico

Junior Pega Developer

Oct 2025 – Present

Troubleshoot application issues and collaborated with cross-functional teams to deliver fixes

Developed and maintained Pega workflows for enterprise insurance processes

Zurich Capability Center

Mexico City, Mexico

Junior Full-Stack Developer

Feb 2025 - Oct 2025

Resolved frontend and backend production issues in React and Java applications

Improved application stability by identifying recurring bugs and implementing fixes

Documented technical issues and solutions to improve maintainability across the team

ACADEMIC EXPERIENCE

Banamex Lite

Tecnológico de Monterrey Campus Santa Fe

AI Tools, MVP Design, Strategic Analysis

Feb 2026

Developed a technological solution proposal for Banamex in a multidisciplinary team with engineering and business students.

Collaborated across disciplines to design a functional MVP within a 5-week timeframe.

Utilized AI tools to accelerate development and support implementation of AI-driven features.

GymIQ

Tecnológico de Monterrey Campus Santa Fe

React Native, Python, Reinforcement Learning

Sep 2025 - Dec 2025

Built a mobile fitness application using React Native with personalized workout tracking features

Designed and implemented a reinforcement learning-based system to adapt training plans based on user data and performance.
